Art Unit: 1772

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-4, drawn to a multilayer module, classified in class 428, subclass 138.

II. Claims 5-9, drawn to a method of making a multilayer module, classified in class 156, subclass 89.12.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions Group II, claims 5-9 and Group I, claims 1-4 are related as process of making and product made. The inventions are distinct if either or both of the following can be shown:

(1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed could be made by firing and forming the layers of the module separately and then joining them by lamination with an adhesive.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by

Art Unit: 1772.

their different classification, and since the fields of search are not co-extensive, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Mr. Richard Fichter on 19 November 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William
